April 12, 2018
from 3:00 pm - 4:00 pm in
North Hall 102
at The University of New Haven

Exploring Intersections of Teaching for Creativity, Equity, and Inquiry Instruction

— **Dr. Houssein El Turkey**
Assistant Professor
Department of Mathematics & Physics
University of New Haven

Abstract: In this presentation, I will discuss a pilot study conducted by the Creativity Research Group that showed evidence of intersections between Teaching for Creativity, Equity, and Inquiry Instruction. I will introduce a brief literature review on RUME research in these three areas and I will examine our conjectured intersections between them.
